ASMAA ALI KHALIFA AHMED

Product Manager – Analytics & AI

Cairo, Egypt asmaali.elsheikh@gmail.com +20 1060408376 in/asmaa-ali-8a4738125 github.com/Asmaa-elsheikh

SUMMARY

Strategic and results-driven Product Manager with a dynamic background merging data analytics, AI/ML product development, customer experience, and cross-functional leadership. Proven ability to bridge business and technical teams to deliver impactful, user-centric solutions. Experienced in managing the full product lifecycle, from vision and roadmap to execution and optimization, with a strong foundation in data governance, stakeholder alignment, and scalable solution delivery

EXPERIENCE

Product Manager – Analytics & AI

Qara Digital Solutions **Oct 2024 - Present**

- Successfully launched an AI product, **the Analytics Chatbot** integrated with a dashboard, enabling real-time, data-driven insights and improving user engagement.
- Built a robust **analytics system** using Power BI serving as the core client analytics platform, supporting strategic decisions with clear, actionable insights with a 90% satisfaction rate.
- Deployed automated reporting dashboards and a **centralized Reporting Hub**, saving around 8 working hours per week and enhancing visibility across teams.
- Defined clear KPIs and success metrics to measure product performance and guide continuous improvement.
- Developed and maintained an AI/ML product roadmap aligned with business goals and partner capabilities.
- Applied a **vibe-coding mindset** to quickly translate ideas into working prototypes, validating workflows, UX, and data logic before scaling into production-grade solutions
- Led cross-functional collaboration between engineering, data science, and operations to deliver integrated, scalable solutions.
- Translated business requirements into practical AI/ML-powered features with measurable impact.
- Oversaw end-to-end product lifecycle from ideation to deployment ensuring fast iteration and high-quality delivery.
- Ensured AI/ML outputs were interpretable and actionable for non-technical users through continuous feedback loops.
- Partnered with external technology providers to **develop new product features** when internal capacity was fully utilized.
- Maintained strong alignment between business and technical teams through regular stakeholder updates and transparent communication.

Product Manager (Part-Time)

Upsend-AI Enabled LMS **Oct 2025– Dec 2025**

- Led product discovery for a multi-tenant **LMS**, defining the core MVP scope across course management, completion rules, assessments, SOP workflows, and compliance reporting.
- Translated high-level business ideas into clear product requirements, producing detailed user stories, acceptance criteria, and end-to-end flows that aligned product, engineering, and UI teams.
- Established the **MVP** vs **Post-MVP** roadmap, preventing scope creep and de-prioritizing high-risk integrations (ERP, marketplace, advanced AI) in favor of core LMS stability.
- Designed foundational LMS logic including module-based completion rules, assignment workflows, learner progress tracking, and audit-ready SOP acknowledgment flows.

- Partnered with engineering to assess technical feasibility, sequencing, and dependencies, reducing rework during sprint execution.
- Acted as the product bridge between business stakeholders and delivery teams, ensuring decisions were user-centered, feasible, and scalable.

Business Intelligence Analyst

Qara Digital Solutions **Oct 2023 – Oct2024**

- Led data analysis initiatives, resulting in a 20% increase in actionable insights for stakeholders as optimizing referral targets to ensure higher engagement and goal completion.
- Analyze complex datasets to deliver actionable insights and recommendations to stakeholders
- Develop and maintain reports, dashboards, and visualizations using Power BI to communicate key performance metrics
- Lead a team of data scientists as a project manager, successfully delivering 2 major data-driven projects ahead of schedule
- Collaborate with cross-functional teams to identify process improvement opportunities and enhance customer satisfaction
- Conduct in-depth analysis of customer feedback and behavior to drive overall customer experience improvements

Customer Experience Manager

Qara Digital Solutions

Sep 2022 - Sep 2023

- Developed and implemented customer experience optimization strategies across the customer lifecycle
- Created a customer journey roadmap to easily monitor and optimize it.
- Created c-level dashboards using Power BI to support strategic decision-making
- Managed a customer service team, monitoring day-to-day activities and KPIs
- Established a data analysis framework that increased the resolution rate of customer complaints by 35%
- Partnered with cross-functional teams to translate business needs into new customer solutions

Customer Service & E-Commerce Operations Manager

Achilles

- Managed high-volume customer service operations, consistently meeting deadlines and production targets
- Collaborated with the financial team to set budgets, reduce costs, and improve profitability
- Handled escalated cases and made critical decisions to resolve complex customer issues
- Executed KPI metrics for customer service, moderators, and related teams to enhance performance

Customer Service Team Leader

Achilles **Jun 2019 - Sep 2020**

- Managed and mentored a team of 8 customer service representatives, fostering a high-performance and collaborative environment.
- Implemented targeted training programs that improved **first-call resolution rates by 30%**.
- Monitored team performance through KPIs and regular feedback sessions to ensure service quality and consistency

Senior SC Specialist

Yellow Pages **Sep 2014 - Nov 2018**

- Conducted outbound calls to verify and update business information.
- Resolved inaccurate website reports and ensured data accuracy.
- Met daily targets for outreach, verification, and listing accuracy.
